15013 Denver West Parkway
Golden, CO 80401

To Whom It May Concern:

On behalf of Cleantech San Diego, please accept this letter as one of support for Primo Wind's application to the U.S. Department of Energy's Distributed Wind Turbine Competitiveness Improvement Project.

Cleantech San Diego is a nonprofit business organization that positions the greater San Diego region as a global leader in the cleantech economy. We support the cleantech industry by fostering collaborations across the private-public-academic landscape, leading advocacy efforts to promote cleantech priorities, and encouraging investment in the San Diego region.

Primo Wind is redefining the perception of built-environment wind generation. As an environmentally-conscious company, Primo Wind's technology delivers a combination of robust and greener materials, bird friendliness, silent operation, and safe and efficient operation at low wind speed. Should they be awarded funding per this solicitation, Primo Wind will leverage NREL's expertise to further develop their distributed wind technology. They will refine, certify, and demonstrate their technology in a wider variety of settings including distributed urban energy generation and microgrids.

We enthusiastically support Primo Wind's application and respectfully request its approval. Should you have any questions regarding our support, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Jason Anderson".
